

MODEL VW-1000 VACUUM WHEEL TAPE APPLICATOR

The Model VW-1000 Vacuum Wheel Tape Applicator is designed to apply intermittent pieces of pressure sensitive tapes to individual blanks or webs at speeds of up to 1,000 ft/min.

Automatic splicing of the tape provides for continuous running of the machine when a tape roll is depleted.

FEATURES

- Designed to apply tape at up to 1,000 ft/min
- Tape can be applied to the top or bottom side of a web or to the top side of individual blanks at high speed.
- The applicator can be installed into your printing press; timed folder gluer or a stand-alone unit can be furnished.
- Applies adhesive transfer tape and tear strip tape simultaneously.
- The vacuum wheel can be driven from the parent machine or can be electronically synchronized.
- Automatic splicing of adhesive transfer tapes provide for continuous running when the tape roll is depleted.

PRODUCT SPECIFICATIONS
