

Solutions that stick since 1972

Straub Line Laminator

Where Efficiency Meets Simplicity.

Introducing The SD-310/320 Straight Line Laminator

Take your tape application process to the next level with this manual process assist tool. Operators push product straight through the conveyor and the tape will be precisely applied with the correct pressure. The operator cuts the tape to finish application.

OPTIMIZING	Speed	Increase production by 100% or more.
	Precision	The Straight Line Laminator takes "Good enough" out of the question, with exact results every time.
	Quality	Ensure consistency in your applications. No more guess and check.

Common Use Examples for the SD-310/320 Straight Line Laminator

Straub Design Company has 50+ Years of Experience

1972 We've been providing solutions that stick since our founding in 1972.

From hand applicators to fully automated lines, we have designed, manufactured, sold, and supported 10,000+ systems around the globe.

300+ Million Miles of tape laid by Straub Design Applicators.

1000+ Happy Customers served by our dedicated Straub Design team.

20 Years of Straight Line Laminators

Our first model of this equipment (T-653) has been running smoothly for over 2 decades. The SD-310/320 is a result of our innovative spirit, constantly improving and evolving with our customers' needs.

SD-310/320 Straight Line Laminator Options

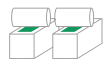

Fixed SD-310/320-1XXX

Our Fixed offering improves your manual process of tape application with fixed capabilities. Choose this option if you plan to apply one tape width at one pressure level.

Offered in

Single Lane
SD-310/320-1100

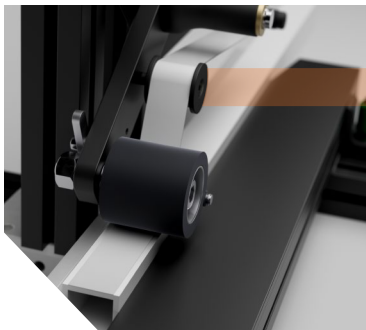

Dual Lane
SD-310/320-1200

Holds up to 18-inch diameter rolls for reduced changeover

Durable steel apply arm

Tape-specific guide width
options:
 $\frac{1}{4}$ ", $\frac{3}{8}$ ", $\frac{1}{2}$ ", $\frac{3}{4}$ ", 1",
Custom widths available by request

Adjustable spring pressure & wet-out
Tool required

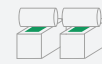

Flex SD-310/320-2XXX

Our Flex offering improves your manual process of tape application with product variations in mind. Choose this option if you will apply tape with multiple widths at various pressure levels.

Offered in

Single Lane
SD-310/320-2100

Dual Lane
SD-310/320-2200

Holds up to 18-inch diameter rolls for reduced changeover

Durable steel apply arm

Adjustable guide width to fit any tape ranging from $\frac{1}{4}$ " to 1".

Adjustable spring pressure & wet-out
Toolless

Looking for more?

We've got it. Whether it's a standard part or a fully custom multi-level system, chances are, we have what you need. And if we don't, we'll build it for you.
